**Hearts & Science Marketing Agency Gives Back to Atlanta Based
Artportunity Knocks After School Program**

Atlanta, GA: 2/20/20- What do you get when you combine an afternoon of taking off from work to learn, play and bond with elementary children? An experience that brings out the kid in all of us!

That's exactly what happened with the Team of Employees from [Hearts & Science](#) as they volunteered their time at an Atlanta based after school program, [Artportunity Knocks](#). Artportunity Knocks has 2 locations and this program happened at [Harper Archer Elementary School](#), 3399 Collier Dr NW, Atlanta, GA 30331.

Volunteers from Hearts & Science set up an art project for the kids and worked one on one to create their own heart-shaped book that would *display what the kids love, what they hope for in their future and craft their vision statements.*

After a Day of Corporate Service, a large **donation of \$5,000** was given to [Artportunity Knocks STEAM EXPLORERS After School Program](#). This money will continue the excellent and engaging programs that introduce these young students to STEAM.

Hearts & Science has a very proactive Corporate Service Program and strongly believe in Giving Back to Their Community. They have an interest in educating children, supporting arts and sciences and making an impact in the future of their environment. This year the Program was dedicated to celebrating the 4-Year anniversary of Hearts & Science, a marketing agency based in New York and celebrating their employees that are getting out of the office and giving back to the community. "Putting Hearts into the Arts" initiative will bring a day of art projects to underserved youth.

The rest of this month, the Hearts & Science team is giving back in the following cities: New York, Los Angeles and Dallas.

About Artportunity Knocks:

Empowering youth to make Positive and Smart choices while increasing opportunities in the Arts, education, community service and bridging cultures.

About Hearts & Science Marketing Agency:

Hearts & Science is a marketing agency using data to help brands build individual relationships with consumers and a foundation of heart.
